# Path

- Anchored to Cognitive Principles
  - Need a boundary, scaled world
    - » Operational Domain – simulated world/testbed
    - » Team Cognition, Shared/Complementary Mental Model/Schema/Expectation/Understanding

Meta-analysis, organic, emergent
- 20-30 year horizon

Tool building (will they come)
- Not aligned with cognition

Collaboration during planning allows us to "**lean forward**" into execution (shared representations)
